## WORK EXPERIENCE

### Product Designer

2020 - 2023

- Tata Consultancy Services being one of leading IT, consulting and business solutions organizations , got an opportunity to work on multiple projects in different domains.
- As a End to End Product designer(**UI/UX/User flow/wireframing & prototyping**) my major responsibility is to understand the problem of product/service and target audience. Ideate and giving a solution to the problem (Problem solving). Coordinating with team members and other stakeholders to ensure the solution is feasible and align with the overall product vision. Usability test.
- My core responsibilities are:
  - To take ownership of projects, from concept through to completion and working across multiple project deadlines.
  - To create user-centric designs that can help to improve the user experience and increase customer satisfaction.
- Have been worked on (**Metaverse - VR**) - Banking domain in creating a Virtual Reality Banking Environment incorporating **world space UI & 3D elements** within it which touts to be the next gen of banking domain.

### Graphic Designer

2017 - 2019

- My journey began with 2adpro, a unique global design and technology services company. My major responsibilities had been creating visually rich graphic designs for advertisements, logos, posters, brochures, websites, social media graphics, etc.,
- Some of my other key responsibilities were collaborating with copywriters, photographers, and other professionals to create well-rounded designs.
